Additional Comments: Arhaan has worked very hard this year towards his Grade 2 ABRSM exam and I thought he performed really well on the day. Arhaan has a lot of natural musical talent and has really begun to understand his vocal technique as well, which has fixed some confusion about chest/head voice. I am very proud of Arhaan for delivering a confident performance at his exam, as well as for his performances in school this year.

Future Goals: As Arhaan's voice continues to change and grow he needs to really focus on his breath and singing always from his diaphragm in order to keep improving at the same rate. He should be working also towards his Grade 3 ARBSM exam, in either Musical Theatre or Classical.
